

ViroMed Laboratories 2010 Cell Culture Price List

Media

Catalog #	Name	% FBS	Basic MEM Plus Other Ingredients Listed	Sizes Available		
				50mL	100mL	500mL
10-100-	Chlamydia Overlay	10%	Gentamicin, Fungizone, Glucose, 2µg/mL Cycloheximide, 10 mm HEPES	●	●	●
10-199-	Chlamydia Overlay	10%	Gentamicin, Fungizone, Glucose, 2µg/mL Cycloheximide, 20 mm HEPES	●	●	
10-110-	Chlamydia Overlay	10%	Gentamicin, Fungizone, Glucose, 2µg/mL Cycloheximide, Vancomycin	●	●	●
10-120-	Eagle MEM	10%	Penicillin, Gentamicin, Fungizone, 10 mM HEPES buffer	●		●
10-162-	Eagle MEM	10%	Penicillin, Gentamicin, Fungizone, 25 mM HEPES buffer	●	●	●
10-121-	Eagle MEM	10%	Gentamicin, Fungizone	●		●
10-137-	2X Eagle MEM	10%	Vancomycin, no HEPES			●
10-122-	Eagle MEM	5%	Penicillin, Gentamicin, Fungizone, 10 mM HEPES buffer	●	●	●
10-189-	Eagle MEM	5%	Penicillin, Gentamicin, Fungizone, 20 mM HEPES buffer	●	●	●
10-193-	Leibovitz's (L-15) Medium	5%	Penicillin, Gentamicin, Fungizone, 10 mM HEPES buffer		●	
10-123-	Eagle MEM	5%	Gentamicin, Fungizone	●	●	●
10-132-	Eagle MEM	5%	Penicillin, no HEPES			●
10-124-	Eagle MEM	2%	Penicillin, Gentamicin, Fungizone, 10mM HEPES buffer	●	●	●
10-198-	Eagle MEM	2%	Penicillin, Gentamicin, Fungizone, 20 mM HEPES buffer	●	●	●
10-125-	Eagle MEM	2%	Gentamicin, Fungizone	●		●
10-128-	Eagle MEM	2%	SV5 & SV40 antisera, Penicillin, Gentamicin, Fungizone		●	●
10-140-	Leibovitz's (L-15) Medium	2%	Penicillin, Gentamicin, Fungizone	●		
10-141-	Leibovitz's (L-15) Medium	2%	Gentamicin, Fungizone		●	
10-118-	Eagle MEM	2%	Vancomycin, 20 mM HEPES buffer		●	
10-131-	Eagle MEM	2%	Penicillin, no HEPES			●
10-126-	Eagle MEM	0%	Penicillin, Gentamicin, Fungizone, 10 mM HEPES buffer	●	●	●
10-195-	Eagle MEM	0%	Penicillin, Gentamicin, Fungizone, 20 mM HEPES buffer	●	●	●
10-129-	Eagle MEM	0%	Gentamicin, Fungizone	●		●
10-127-	Eagle MEM	0%	SV5 & SV40 antisera, Penicillin, Gentamicin, Fungizone	●	●	●
10-134-	Eagle MEM	0%	Penicillin, no HEPES			●
10-117-	Eagle MEM	0%	Vancomycin, 20 mM HEPES buffer	●		
10-142-	Eagle MEM	0%	SV5 & SV40 antisera, no antibiotics		●	
10-511-	Eagle MEM	0%	No antibiotics (plain MEM) - 20 mM HEPES buffer		●	●
10-159-	Eagle MEM		pH 2-3 (acid sensitivity testing)		●	
10-165-	Hank's		Hank's balanced salt solution	●	●	●

Add -50, -100, or -500 to catalog # to indicate size; eg, write 10-100-50 to order Chlamydia Overlay (10mm HEPES) in the 50mL size.

All media is made fresh each week (on Thursdays) and has a 1 month expiration (from day made).

Media is normally shipped Tuesday for Wednesday delivery and can be placed on a standing order, delivered weekly or every 2-3 weeks, etc., or ordered as needed.

Prices

50 mL: \$ 11.00

100 mL: \$ 16.25

500 mL: \$ 54.00

ViroMed 2010 Cell Culture Price List

Cell Lines

Primary Cell Lines			
Cell Code	Cell Line Abbreviation	Full Description	Passage Number
309	RMK	Rhesus monkey kidney (<i>Macaca mulatta</i>) with SV5 & SV40 antisera	
308	RMK	Rhesus monkey kidney (<i>Macaca mulatta</i>) without antiserum	
310	RK	Rabbit kidney, New Zealand White, 7-15 days old	
Serially Passed Cell Lines			
320	A549	Lung carcinoma, human; L-15 - tubes, vials, MEM - flasks/plates	< 90
323	BGMK	"Buffalo Green" monkey kidney	< 125
333	H292	Pulmonary mucoepidermoid carcinoma, human	< 125
313	HEK 293	Transformed primary human embryonic kidney	< 60
321	HeLa	Epitheloid carcinoma, cervix, human	< 150
329	HeLa 229	Epitheloid carcinoma, cervix, human	< 125
303	HEp-2	Epidermoid carcinoma, larynx, human, HeLa markers; L-15 - tubes, vials, MEM - flasks/plates	< 400
303		2nd seeding - Wed/Thurs ship	< 400
330	LLC-MK2	Rhesus monkey	< 325
306	McCOY	Mouse fibroblasts	< 75
306		2nd seeding - Wed/Thurs ship	< 75
406	McCOY LIGHTS	Mouse fibroblasts	< 75
406		2nd seeding - Wed/Thurs ship	< 75
322	MDCK	Madin-Darby canine kidney, NBL-2	< 80
302	MRC-5	Lung, diploid, human, fibroblast	< 25
402		2nd seeding - Wed/Thurs ship	< 25
314	RD	Rhabdomyosarcoma, embryonic, human	< 80
301	SF	Foreskin, diploid, human, fibroblast	< 10
304	Vero	African green monkey kidney	< 180
311	WI-38	Lung, diploid, human, fibroblast	< 25

** Volume discounts available - \$25.00 minimum order

Cells are normally shipped Monday for Tuesday delivery except where indicated.

Directions

How to determine catalog number

Step 1 Select a cell line and note the 3-digit cell code.

Step 2 Select an available format and note the format code listed at the top of the page.

Step 3 Replace the -xxx- in the format code with the 3-digit cell code from Step 1.

Example

To order RMK cells in a 25 cm flask, combine cell code 309 with format code 16-xxx-25 to determine the complete catalog number: 16-309-25.

Available Formats							
Tube 16 x 125	Snap-cap Vial	Flasks			Microtiter Plates		
Code 14-xxx	Code 15-xxx	25cm ² Code 16-xxx-25	75cm ² Code 16-xxx-75	175cm ² Code 16-xxx-175	24-well Code 18-xxx-24	48-well Code 18-xxx-48	96-well Code 18-xxx-96

Price Guide

Primary Cell Lines

Tube	\$ 2.55
Snap-cap vial	\$ 2.80
Flasks:	
25 cm	\$ 54.00
75 cm	\$ 87.00
175 cm	\$ 150.00
Microtiter plates:	
24-well	\$ 43.00
48-well	N/A
96-well	\$ 102.00

Serially Passed Cell Lines

Tube	\$ 2.05
Snap-cap vial	\$ 2.25
Flasks:	
25 cm	\$ 43.00
75 cm	\$ 75.00
175 cm	\$ 119.00
Microtiter plates:	
24-well	\$ 34.00
48-well	\$ 54.00
96-well	\$ 82.00

ViroMed Laboratories 2010 Cell Culture Price List

Blank Vials

Product Description	Catalog #	Size	Price
Snap-cap vials - sterile with coverslips	15-1005	Each	\$ 0.75

Animal Red Blood Cells (RBCs)

Product Description	Catalog #	Size	Price
Chicken RBCs in Alsever's solution	10-202-30	30 mL	\$ 45.50
GPRBCs (Guinea pig RBCs) in Alsever's solution	10-200-5 10-200-10 10-200-20	5 mL 10 mL 20 mL	\$ 29.00 \$ 39.50 \$ 51.00
Sheep RBCs in Alsever's solution	10-201-30	30 mL	\$ 45.50
Swine RBCs in Alsever's solution	10-207-30	30 mL	\$ 48.50
Turkey RBCs in Alsever's solution	10-203-30	30 mL	\$ 45.50

RBCs are obtained from Biolink, New York

PathoDX FA Products

Catalog #	Description	Comments	mL	Qty/size	Price
11-5100	<i>Chlamydia</i> culture confirmation	Stains all <i>Chlamydia</i> species	5.5 mL	100 tests	\$ 130.00
11-5110	<i>Chlamydia trachomatis</i> direct specimen		4.5 mL	100 tests	\$ 295.00
11-5210	Herpes typing (5 control slides included)	Differential staining pattern for typing	4.5 mL	100 tests	\$ 225.00
11-5250	Herpes typing control slides			5 slides/pk	\$ 55.00
11-5410	RSV (5 control slides included)		5.0 mL	100 tests	\$ 215.00
11-5450	RSV control slides			5 slides/pk	\$ 35.00
11-5420	Respiratory virus panel kit	Includes all components below plus negative control reagent		200 tests	\$ 665.00
11-5429	RESP virus panel control slides			5 slides/pk	\$ 50.00

PathoDX FA reagents are manufactured by Diagnostic Products Corporation and owned by ThermoFisher Scientific (Remel).
